Description

Components: Backend and Frontend

Priority: Highest

Affected version: Dedeman v1.0 (dummy version)

Fix version: Dedeman v1.1 (dummy version)

Root cause: API endpoint

Descriptions:

When a user wants to move an existing product in the wish list to a non-existent one, the server throws an error with status code 500.

Preconditions:

1. The user must be logged into his account
2. The user must have at least one product in the wish list

Steps to reproduce:

1. Click on the "Favorites" button
2. From the list of products, select a product and click on "Move to another list"
3. Click on "Move to a new list"
4. Without giving values to the mandatory fields, press the "Save" button

Expected results: No errors are received at API/UI levels

Actual results: Found two issues:

1. An error with status code 500 is thrown at the API level

Eroare 500

1. At the UI level, three messages are displayed: "Provide the wish list name."

You can see the below video with the error
